Self-care guide to wound dressings

Information for patients

This self-care guide to wound dressings has been provided by your plastic reconstructive surgery/wound care nurse or doctor to help you when changing your own dressings between your out-patient appointments.

Type and location of wound(s):

Date of operation (if applicable):

Dressings plan

The wound products listed in the 'dressings plan' below are recommendations. If you prefer to use alternative wound products please discuss with your nurse or doctor.

- Take pain medication if required or as prescribed by your doctor before your dressing change.
- Remove your old dressing. Dispose of it: **At home**
- Clean your wound(s) as advised:
 - Shower the wound(s) carefully
 - Use normal saline
 - Use an alternative wound irrigation solution as advised by your nurse or doctor

- Apply the dressing products listed below (or equivalent) to the wound(s) in the following order:
 1.
 2.
 3.
 4.
- Surrounding skin care:

Frequency of dressing changes

Please change your dressing:

Once a week Twice a week Three times a week Daily

What to do if you experience a problem with your wound(s)

If you experience heat, redness, swelling, odour, pain or drainage from your wound(s) or surrounding skin, please contact your GP or the:

- Plastic surgery out-patient department at the Royal Free Hospital on: 020 7794 0500 extension 31312.
- Dressing clinic at Mount Vernon Hospital on: 01923 844 395.

In an emergency you are advised to attend your local emergency department.
